2. Database: productcatalog table added with products and accessories

The screenshot shows a database management tool interface. The SQL query editor at the top contains the query: `SELECT * FROM smartportables.productcatalog;`. Below the query editor, the 'Result Grid' tab is active, displaying a table with 15 rows of product data. The table columns are: productid, model, price, image, manufacturer, pcondition, discount, and quantity. The data includes various smartwatches, speakers, and headphones from manufacturers like LG, Samsung, Apple, Sony, JBL, and Beats.

productid	model	price	image	manufacturer	pcondition	discount	qua
